RIFF TABLE

The luminaire family Riff – which comprises a light engine with replaceable shades – has been extended with a new addition in the form of a table lamp.

“There is value and simplicity in being able to offer an entire luminaire family at the project stage. With the family concept, there is a model for each room and environment that creates coherent and harmonious furnishing”, says designer Olle Lundberg.

TIMELESS LUMINAIRES

Riff table consists of a series of elegant and timeless luminaires with shades in opal glass. Riff table gives a soft and diffuse room lighting, the opal glass and LED light source complement each other perfectly and create a pleasant and diffuser-free experience. Riff table can easily be adapted to customer needs and preferences with a choice of different shades.

Slim - a thin shade which makes a statement in the room, Cone - a new design in a classic form or why not the soft organic Bowl.
